

Need to get your entry to me?

Different ways to accomplish this:

1. Scan your completed entry and email it to me at trialsec@dognutmom.com
2. Download the entry, fill it out (it is a fillable form), save it and email it to me.

If you have a Mac, download it and open it in Adobe NOT in Preview, it won't work in Preview. If you already opened it in Preview, delete it from your hard drive, download it again and open it with Adobe. It should work, including having the amounts get filled in and added up for you (tested by my scientist brother who is very methodical and who uses Macs <g>)

3. Take a picture of your printed form with your phone and email it to me.
4. Fill it out on your computer and take a picture of the screen with your phone and email it to me. Make sure you send the largest size picture available or I won't be able to read it.
5. Fill it out on your computer and take a screen shot (eg use the Snip tool on a Windows machine, I am sure there is the equivalent on a Mac), save it to your computer and email it to me. Again, if given a choice, save it big so that I can read it.
6. If using an iPad, see link on my site for separate instructions. Any other tablet, sorry, can't help you right now. Not sure if you can fill it out with the device or if there is an app for that - and don't have time to research it right now :-)
