

United States Dogs Agility Association
2026 Cynosport World Games
Tuscon, AZ
November 11-15, 2026

Please read the entire confirmation!! Lots of info in here :-)

Some classes have been moved around compared to what was originally published in the test schedule. **Updated class schedule** is attached and is available on my site:
www.dognutmom.com

Crating Information was released earlier this week. Link to Competitor Information is on my site: www.dognutmom.com

Your entry details now show your **assigned Group**. All IFCS contenders have been assigned to either Group A or Group B. Group Change Requests CANNOT be considered unless:

1. you are running multiple dogs and you have been assigned to two groups
2. you and your significant other are in different groups
3. your dog is being handled by someone other than yourself and that person is not in your group
4. your are a guardian for a minor and they are not in your group.

It isn't possible to put all team mates into the same group - I started doing that and the groups became wildly uneven.

The groupings list will be published in a few days to give time to address any concerns. It will be on my site: www.dognutmom.com and will be published on www.cynosport.com under Competitor Information.

Warm Up Classes on Wednesday:

There are 2 warm up classes:

Wed AM - will be run in the morning BEFORE STP and GP quarterfinals

Wed PM - will be run on Wednesday mid afternoon and is for those who have NO dogs running in either of the quarterfinal classes.

Agility Classic on Thursday:

If your dog was entered in either the AM or PM Warm Up Runs on Wednesday, your dog is now entered in the Agility Classic run on Thursday. This will be a short, modified version of the very first USDAA course run in Houston on Nov 1, 1986 in honor of USDAA's 40th Anniversary!! We will NOT be using the chute, table, 6'3" aframe, small tire or narrow weave poles from back in the day :-)

IFCS World Team Tryouts:

If you indicated that you wanted to try out for the IFCS Team, your dog is now entered in WTT Jumpers on Thursday and WTT Standard on Friday. These two courses will be run in the afternoon after all IFCS groups have finished their other runs during the day. The other groups will still run opposite these two classes.

Team:

If you entered as a draw, let me know what kind of team you are looking for: eg, "want to make the finals" all the way to "we just want the ring time" I want to get draw teams put together next week.

Please check all information listed in your confirmation carefully, and contact me with any discrepancies immediately - PLEASE **DOUBLE CHECK** YOUR U#'s AND JUMP HEIGHTS, especially if not jumping the default height! **Email: trialsec@dognutmom.com**

It is too late to change your **tshirt** size. Tshirts have already been ordered. You can collect the size listed in your confirmation and exchange for a different size, if available, later in the week after everyone has checked in.

Check www.cynosport.com under the **Competitor Info** button. This site will have all documents pertaining to Cynosport such as group lists, crating, run/walk rotations and final confirmation details.

Sincerely,
Helen McNenly
2026 Cynosport Trial Secretary
